SUBJECT INDEX, VOLUME 34

Acapnia, effect on adrenal cortex, 187
Adrenal and diabetogenic action of stilbestrol, 361
  and thymus weight, 329
  and water intoxication, 400
  assay of cortical hormones, 191
  effect of low barometric pressure, 187, 210
  grafts into cerebral cortex, 60
  influence of 11-dehydro-17-hydroxycorticosterone on tumor growth, 416
  relation to cytochrome system, 181
Andrenotropin, effects on bone, 305, 311
  influence on effect of growth hormone, 311
Age and reproductive system of rat, 215
Androgens, assay by pigment of sparrow's bill, 389
  effect on bursa of Fabricius, 340
  metabolism of, in pregnant monkeys, 351
  metabolism of, in tumor bearing mice, 421
Anterior pituitary, localization of hormones, 39
Antidiuretic effect of yohimbine, 143
Assay, adrenal cortical hormones, 191
  androgen by sparrow's bill, 389
  estrogens, 149
  prolactin, 1, 14
Association notices, 142, 212

Blood, concentration of relaxin in, 115
  effect of estrogens on, 240
Bone, effect of estrogen on pneumatization of, 297
  effect of estrogens on marrow, 240
Bone growth, adrenotropin and, 305, 311
  growth hormone, 311
Book Reviews,
  Hermaphroditos: The Intersex, 140
  Physiological Psychology, 299
Bursa of Fabricius as influenced by sex hormones, 340

Castration, effect on the thymus, 329
Cerebrum, grafts of adrenal into, 60
Corpus Luteum, formation facilitated by progesterone, 136
Cretinism, induced by thiouracil, 69
Crop sac, assay for prolactin, 1, 14
Cytochrome system, relation to adrenal, 181

Diabetes mellitus, diabetogenic effect of stilbestrol, 361

Endometrium, intraocular transplants and estrogen, 376
  and pneumatization in chick bones, 297
  assay of, 149
  effect on bursa of fabricius, 340
  effect on intraocular endometrial transplants, 376
  effect on liver cells, 50
  effect on pituitary, 254
  intrasplenic injection and action of, 335
  metabolism of, 203, 370
  metabolism of, in tumor bearing mice, 421
  metabolism of, influence of vitamins, 346
  micro method for, 175
  relation to blood and bone marrow, 240
Estrous cycle, effect of light on, 276

Fluorescence, thyroid gland, 27

Gonadotropin, from castrate urine—augmentation by urine component, 301
Growth, effect of thiouracil on, 69

Histochemistry, thyroid gland, 27
Hypophysis and diabetogenic action of stilbestrol, 361
  effect of diethylstilbestrol on, 254

Iodine, accumulation in thyroid, 159
content in thyroid after thiouracil, 282
effect of low intake on pituitary, 83
uptake after antithyroid drugs, 245

Ketosteroids, micro method for, 175

Liver, effect of estrogens and progesterone, 50
effect on estrogen metabolism, 203, 370

Metabolism, of steroid hormones in tumor bearing mice, 421
of water—effect of adrenal cortex, 400
Metamorphosis, inhibition by thiouracil, 138
Muscle-Work test, relation to adrenals, 191

Ovary, effect of hysterectomy on, 135
Ovulation, facilitation by progesterone, 136

Pancreas and diabetogenic action of stilbestrol, 361
Pituitary, adrenocorticotropic hormone, 77
effect of iodine on cytology of pituitary, 83
effect of thyroid on cytology of pituitary, 83
influence of thyroid on gonadotrophic activity, 90
Potassium Thiocyanate, iodine uptake after, 245
Pregnancy, concentration of relaxin during, 115
Progesterone and sexual receptivity, 269
effect on liver cells, 50
facilitation of ovulation, 136
Prolactin, assay by crop sac method, 1, 14

Radioactive iodine, accumulation in thyroid, 159
as indicator of thyroxin synthesis, 265
uptake after antithyroid drugs, 245
Relaxin, concentration in blood, 115
female reproductive tract in formation of, 122
preparation and assay, 103
Reproductive system, effect of light on, 276
reactivity in relation to age of rat, 215
Respiration of tissue, influence of thyroid, 353

Sexual receptivity, induction by estrogen and progesterone, 269
Sparrow bill as androgen test, 389
Stilbestrol, diabetogenic effect in rats, 361

Thiouracil, as causative agent for cretinism, 69
effect on chick thyroid, 168
effect on fluorescence and histochemistry of thyroid, 27
effect on iodine content of thyroid, 282
formation of thyroxin after, 265
inhibition of metamorphosis, 138
iodine uptake after, 245
miscellaneous effects, 317
Thymus, influence of castration and adrenalectomy, 329
Thyroid, action of thiourea on, 44
antithyroid drugs and iodine uptake, 245
effect of low iodine intake, 83
effect of thiouracil, 317
effect of thiouracil in chick, 168
effect on gonadotrophic activity, 90
effect on tissue respiration, 353
fluorescence and histochemistry, 27
formation of thyroxin after thiouracil, 265
in vitro accumulation of iodine, 159
inhibition of metamorphosis by thiouracil, 138
iodine content after thiouracil, 282
Thyroxin, effect of thiouracil on formation of, 265
Tumors, and metabolism of steroid hormones, 421
effect of 11-dehydro-17-hydroxycorticosterone, 416

Uterus, effect of removal on ovary, 135

Vagotomy, effect on adrenal hypertrophy, 210
Vitamins, effect on estrogen metabolism, 346
Water intoxication, influence of adrenal cortex, 400
Yohimbine, antidiuretic effect of, 143
